Sceptalight™ LED
Heavy Duty Light Fixture

LVPF-LED-HAZ | 277121

Sceptalight LED Heavy Duty Light Fixtures provide exceptional lighting for wet, corrosive and hazardous environments. They can be used in a variety of commercial and industrial applications where durability and water tightness are required. Sceptalight LEDs have been built from durable materials and tested and certified to the latest luminaire and retrofit standards. Sceptalight LEDs provide over 1575 lumens of light output using only 15W of electricity and are dimmable down to 5%.

APPLICATION / USE

Sceptalight LEDs are intended for use with non-metallic conduit systems (PVC), designed for use in specific harsh industrial environments involving flammable or explosive gases, vapours or dusts. LVPF-LED-HAZ fixture is CSA listed to UL 844, Class I, Div 2 Groups A, B, C, & D and Class II, Div 2 Groups F & G.
